

County Children's Health Initiative Program (C-CHIP) was established by Chapter 648, Statutes of 2001 (AB 495) which created the Children's Health Initiative Matching (CHIM) Fund in the State Treasury administered by the Managed Risk Medical Insurance Board (MRMIB). The fund allows for the intergovernmental transfer of local funds used for local County Children's Health Initiatives (CHIs) purposes to draw down federal financial participation (FFP) matching funds for SCHIP eligible children.
